Education for Health Africa Training Courses Methods 2023

Education for Health Africa is at the forefront of world practices in Education and Training. In line with this all courses in 2023 have been aligned for delivery using tried and tested standardised methods that give every learner the best possible chance of success together with the flexibility required to suit all individuals' situations.

Certificate of Competence Short Courses

Every course is of a different duration depending on the content and accreditation requirements. There will be a different number of hours required for each aspect of training completed in this order:

Steps	Component of Training	Method of Learning	Notes
1	Pre-learning	Self Study using the EFHA learning platform	Mandatory. Open book. Counts 10% of the overall course theoretical mark
2	Theory presentations including theoretical exercises	Live interactive facilitator led online training using Zoom	At set dates throughout the year. See training calendar.
3	End of chapter questions	Self Study using the EFHA learning platform	Mandatory. Open book. Counts 15% of the overall course theoretical mark
4	Practical in person days	In person practical practice and assessments	One practical day is included in the course fee. If more days are required this will attract a further cost.
5	Theory assessment	Online using the EFHA learning platform	The first attempt is included in the course fee. Further attempts will attract a cost.
6	Workplace portfolio of evidence collected in the workplace	Self study submitted on the EFHA learning platform	The first and second submissions are included in the course fee. Further submissions will attract a cost.
7	Practical assessment	Live interactive facilitator led online using Zoom	All components are mandatory.
8	Certificate of Competence	Issued on completion of all theory, practical and portfolio requirements	Included in course fee

Individual Client Requirements

If clients prefer a different way of learning to our standardised methods, we can facilitate training in person or using any other preferred method for groups of 10 or more. We are completely flexible and ready to adapt to our client's needs.

Refresher Training

For all refresher training learners will join the live online facilitator led sessions. They will attain Certificates of Attendance following these sessions.

Bookings

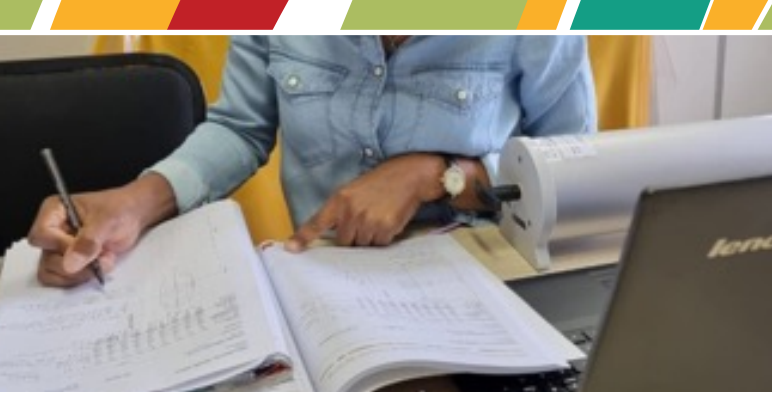

Please see our website for our training dates and locations across Africa. Special course dates can be arranged in host countries for groups. On our website you will also find the booking form, or you can email us.

Course Outline

On registration the full course content is made available to learners on the Education for Health Africa eLearning platform. Printed training manuals are available in advance of learning at an additional cost.

Step 1: Pre-Learning

The first two chapters of each course are given to the learner on registration for orientation to the subject. They will read an Introduction and Overview to the subject as well as the associated Anatomy and Physiology (where applicable) and then answer end of chapter questions on both. This exercise takes place using the Education for Health Africa eLearning platform prior to meeting for the facilitated sessions. Pre-learning should be completed prior to the first day of live facilitation. The marks achieved are counted towards the overall course theory marks.

Step 2: Theory

Our expert facilitators will teach learners live online using the Zoom digital platform. The number of hours of facilitation for each course differs across subjects. Typically, we facilitate training for 5 hours / day rather than 8 to ensure learners stay engaged. We expect student camera's to be on and for everyone to interact as they would in an in-person classroom. The rest of the day could be used to answer end of chapter questions and practice the practical aspects of training.

Note to employers!

We suggest learners undertake the Zoom online facilitated theory presentations from the office to ensure engagement and for equipment availability for practice afterwards.

Step 3: End of Chapter Questions

Each chapter of the training manual has questions at the end which learners must complete on the Education for Health Africa eLearning platform prior to the theory assessment. This encourages full reading of the course content as well as practice for the theory exams which are created in a similar way. These questions are open book and count 15% of the overall course theory mark giving learners an additional chance to do well in the final assessment.

Step 4: Practical demonstration and mentored practice

One pre-scheduled in-person practical demonstration and mentored practice day takes place in all main centres on all courses from 08h00 – 16h00. Should learners require extra time on the equipment this can be arranged but further days will be charged for at a rate of R890.00 / day 08h00 – 16h00 and on facilitator availability.

Step 5: Theory Assessment

Multiple choice theory assessments are completed on the Education for Health Africa eLearning platform at a pre-scheduled time 1 week following the end of the live facilitator led online training sessions. The exam is invigilated by the EFHA office. Learners are to have cameras on throughout. Only the first attempt is used and times are strictly adhered to ensure fair practice. The first theory exam is included in the course fee. Further attempts will be charged for at a rate of R400.00 per repeat attempt.

Step 6: Workplace Portfolio of Evidence

Learners have 1 calendar month from the last day of training to collect, complete and submit a workplace portfolio of evidence. Clear instructions are given. The first and second attempts are included in the course price, but further submissions will be charged for at R500.00 per submission.

Step 7: Practical Assessment

Once the portfolio of evidence has been completed and accepted the learner makes an appointment directly with the facilitator / assessor to complete the practical exam online. One practical exam attempt is included in the training. Further attempts are charged at R500.00 per attempt.

Step 8: Certificate of Competence

Once the theory, practical and portfolio requirements have been met the student will have achieved their Certificate of Competence in their subject. This will be emailed to them with warm congratulations from the whole Education for Health Africa team who celebrates every success with you.

Training Manuals

Training manual with a course

When you have registered for a course via eLearning or online learning you will receive all training materials online via the eLearning platform. These are downloadable but are not printable.

For those that still prefer to learn from a printed hard copy training manual, you can order a printed hard copy training manual separately as an optional extra.

We have described this option below as “Training manual- registered for a course”.

These manuals are available at prices just above printing costs plus you will need to arrange and pay the courier to fetch the printed manual.

Training manual when not registered for a training course

If you are not registered for any training course but would like to purchase a copy of a specific training manual, you may do so. We have described this option below as “Training manual- not registered for a course”.

These manuals are available at prices specified below plus you will need to arrange and pay the courier to fetch the printed manual.

*See prices in the table below
