

CERTIFICATE OF COMPETENCE

Occupational Vision Screening

For Vision Screening Practitioners and Vision Screening Assistants

We are excited to bring our usual high-quality courses to you in collaboration with EDUPLEX, delivered face to face at their premises. Our existing courses will continue to run as normal through our blended learning platform. These face to face sessions are an additional offering, designed to complement our online learning by providing learners with the opportunity for in-person interaction and practical engagement.

Course Outline

- 80 hours in total
- Aligned to QCTO requirements
- Aligned to SAQA Unit Standard 116505
- 30 Level 1 Clinical at NQF Level 5
- Equips healthcare and occupational health professionals with the practical skills and underpinning knowledge required to perform accurate, consistent, and defensible occupational vision screening

What You Will Learn

On achieving competence, learners will be able to do the following within their scope of practice:

- Prepare vision screening equipment and the testing environment
- Conduct workplace vision screening tests according to standard protocols
- Identify unreliable or invalid test results
- Interpret the vision screening test result*
- Record and report vision screening findings accurately in accordance with prescribed procedures
- Manage vision screening records in line with workplace requirements*

** (Interpretation and clinical decision-making are excluded for Assistant Vision Screeners)*
