Occupational Audiometry Workplace Assignment Mentoring and Support

Optional Workplace Assignment Support for Enrolled Audiometry Learners

Mentoring and Review Sessions

These mentoring sessions are designed to support learners who are currently enrolled with Education for Health Africa and are in the process of completing their Audiometry Workplace Assignment. This session provides practical guidance on calibrations and audiograms, to help you complete your portfolio with confidence.

What we will cover:

Comprehensive Review of Calibrations

- Understanding calibration principles
- Identifying common errors
- Practical application guidance

Baseline, Entry & Initial Audiograms

- Clear explanation of differences
- Correct recording and interpretation
- Alignment with workplace requirements

Periodic & Exit Audiograms

- When and how to conduct
- Interpretation and comparison
- Ensuring compliance and accuracy

Who Should Attend?

- Learners currently completing their Audiometry Workplace Assignment
- Candidates who need support with audiograms or testing technique
- Students who would like guidance before submitting their portfolios

What you will gain:

- Clear understanding of calibration requirements
- Confidence in completing workplace assignments
- Improved interpretation of audiograms
