In Person for Groups

Training Pathways - Aligned to SAQA Unit Standard 252125

Spirometry Screening Practitioner

On achieving competence, learners will be able to do the following within their scope of practice:

- Prepare spirometry equipment and the testing environment
- Conduct occupational spirometry screening tests according to standard protocols
- Identify unreliable or invalid spirometry screening test results
- Interpret spirometry screening test results
- Record and report spirometry screening results accurately
- Manage spirometry screening records in line with workplace requirements and within scope of practice

Entry Requirements:

- Professional Registration with SANC, HPCSA or SAMA
- Access to an Occupational Health Clinic

Spirometry Screening Assistant

On achieving competence, learners will be able to do the following within their scope of practice:

- Prepare spirometry equipment and the testing environment
- Conduct occupational spirometry screening tests according to standard protocols
- Identify unreliable or invalid spirometry screening test results
- Interpret spirometry screening test results
- Record and report spirometry screening results accurately

** (Result management is excluded from assessments)*

Entry Requirements:

- Minimum of a Grade 12 / NQF level 4
- Access to an Occupational Health Clinic

All learners complete the same training, but assistants and practitioners are assessed against different competency standards aligned to their scope of practice.
